5. Subject to the provisions of this Act, every kuzars tenant shall have a right of permanent occupancy in his holding and shall not be liable to eviction except in cases mentioned in section 8 of this Act.

6. A kharan tenant may at the end of the period of his tenure or of its last renewal, surrender his holding to the landlord by a document in writing registered after having given notice in writing to the landlord of his intention to do so six months prior to the date of expiry of the period of the said tenure or of its last renewal.

In such cases the landlord shall not be bound to accept the surrender unless it be in respect of the entire holding and the whole of the terms of tenancy and other covenants, if any, are also tendered at the time of the surrender and he shall not also be bound to refund the deposit or to pay the tenant the value of the improvements.

7 If a karam tenant does not surrender the holding as provided in the foregoing section, the landlord shall be bound to grant and the karam tenant to accept, on the term of the karam tenancy and thereafter at the end of every successive term, a renewal on payment of the renewal fee except in the cases mentioned in section 8 below.

8. (1) On the expiry of the term of the demise, a karam tenant may be evicted from the whole or a portion of his holding in any of the following cases:—

(a) If the holding of a portion thereof not being a lot on which a residential house stands together with the garden and compound appurtenant thereto, is required by the landowner for the bona-fide purposes of extending the residential house of himself or the members of his family or for building a new and permanent house for the residence of himself or the members of his family :

Provided that if the landlord fails to extend the residential house or build a new and permanent house within three years from the date of eviction, the previous kassam tenant shall have the option of recovering and holding the same on the original tenure.

Provided that if the landlord fails to carry out the improvement within three years of the date of eviction or demises on kassam, leases or in any way transfers any interest in the land so recovered, the previous kassam tenant shall have the option of recovering and holding the same on the original tenure ;

If in cases falling under clauses (a) and (b) of this section the kassam tenant is not willing to return a portion of the building, he shall have the right of surrendering the whole of his holding on receipt of kassam and value of improvements.

(c) If the kassam tenant neglects or refuses to pay renewal fee and take a renewal within one year from the date of expiry of the term of the demise, provided that the neglect or refusal is not due to a bona-fide difference between the kassam tenant and the landlord as to the terms of the renewal.

When the kassam tenant has incurred forfeiture of his right to get a renewal on account of non-payment of renewal fee and the landlord goes to evict the kassam tenant, if, at the first hearing of the suit or within such time as the court may fix in the circumstances of the case, the kassam tenant pays into court the renewal fee and other dues in arrears together with interest thereon at 12 per cent per

kanam and the Landlord's costs of the suit, the court shall pass an order relieving the kanam tenant against the forfeitures and thereupon the kanam tenant shall hold the land as if the forfeiture had not occurred.

When the kanam tenant has incurred forfeiture on account of refusal to pay additional kanam and the Landlord seeks to evict the kanam tenant, if, at the first hearing of the suit or within such time as the court may fix in the circumstances of the case, the kanam tenant pays into court the additional kanam with interest thereon at 6 per cent per annum and the Landlord's costs of the suit, the court shall pass an order relieving the kanam tenant against forfeiture and thereupon the kanam tenant shall hold the land as if the forfeiture had not occurred.

(e) If the kanam tenant fails to pay mikhavaram during the currency of the demise for three years consecutively notwithstanding an express demand made by a registered letter at any time after the first year's arrears shall have accrued.

The Local Government may, from time to time, by like notification amend or vary the tables so published.

#### STATEMENT OF OBJECTS AND REASONS.

Questions suggested with the relation of land and tenet in Malabar have been agitating the public mind for many years. Almost all the lands in the district, whether forest or waste, agricultural or pastoral are claimed by the *Jenmis* as their absolute property. Even the smallest parcels of land for houses or villages have therefore to be obtained from *Jenmis* and held under them. Though the *Jenmis* have only a small fraction of the total population of the district, they are generally rich and influential. They do not willingly sell their lands, and the laws which govern them prohibit partition and thus prevent the distribution or diffusion of landed property. Land in Malabar is thus systematically kept tied up closely and continuously in the hands of a few.

The *Jenmis* themselves do not usually cultivate their lands. They generally let out their lands to others either as *Kanans* (tenants) or simple leases for cultivation. These *Kanans* and lessees who have the cultivating shares are usually cool and industrious. They cling to their holdings with a fondness and tenacity perhaps

unknown in other parts of the Presidency. But they are often unable to enjoy the fruits of their labour on the land. By the time the land which they have reclaimed or improved or the trees which they have planted and protected begin to yield, they are evicted from their holdings. They are also sometimes evicted from their homesteads where they have lived for years and in some instances even for generations. These unjust evictions have on several occasions caused serious trouble and led to agrarian disturbances.

To devise measures for improving this state of affairs and bettering the condition of tenants, the Government of Madras appointed more than one Committee in the past. Under G.O. No. 170, dated 15th January 1881, they appointed Mr. Logan, who was then the Collector of Madurai, as Special Commissioner to conduct a thorough investigation into the general question of the tenure of land and the tenant's right in Madurai. In June 1882, he submitted his report to the Government containing several suggestions, including a strong recommendation to grant occupancy right to the cultivating tenants of Madurai. "The landlord's power of eviction," he said, "in the public interests, to be curtailed." Again the Government appointed a special Committee in January 1884 with Sir T. Madhava Rao, K.C.S.I., as President and Messrs. Logan, C. Subrama Nair (now Sir C. Subrama Nair) and others as members, to consider the whole question of Madurai tenancy and advise the Government as to the lines on which legislation should proceed. This Committee submitted its report and a draft Madurai Tenancy Bill in July 1884. The report included the remedy for legislation. "The political necessity for interference with the landlord's rights is being to yield," the Committee stated, "in the great discontent prevailing among the agricultural classes regarding the growing tenancy of their tenants, in the fact that among one class of the non-cultivating agrarian class discontent based on jealousy is ready to develop at any moment into agrarian violence and in a spirit of terrorism practised by some Jevanis and apprehended from others." The draft Bill contained a provision for the grant of occupancy right to the known tenants. The draft Bill was referred by the Government to the Madras High Court for the opinion of the Judges. Sir Charles Turner, the then Chief Justice, recorded an elaborate opinion on it, and this was in the way of any legislation being passed then. It may be stated here that even Sir Charles Turner was not entirely against the grant of occupancy right. "The cultivator whether a holder on tenure or on simple lease," said he, "should obtain a right of occupancy in respect of any land held by him for 50 years." The Government appointed another Committee in 1885 with the Hon'ble Mr. Master as President and Sir Madhava Rao, Sir Subramanya Ayyar, Sir Subramana Nair, Mr. Rao and others as members. The majority of members of this Committee were also of opinion that legislation for restraining eviction was necessary. They also unanimously recommended that a legislative measure for securing to the tenants adequate value of improvements on eviction should be immediately

passed. The Government accordingly passed Act I of 1897 for awarding compensation for improvements to the tenants. Subsequently the Government considered that further legislation was required to amend the whole law of landlord and tenant in Malabar and placed Sir Hume on special duty in 1900 with instructions to draft a Malabar Tenancy Bill incorporating therein the provisions of the Improvements Act. The unexpected and melancholy death of Mr. Hume soon after this prevented the completion of his work. Nothing further was done in the matter till 1905 when a Bill to amend the Improvements Act of 1897 was introduced in the Legislative Council and after a great deal of discussion finally passed (Act No. 1 of 1906). It may also be stated here that Mr. Hume, the then Collector of Malabar, with a view to restricting under certain conditions the power of granting *Mahabubas*, drafted in 1899 "the Malabar Mahabub Bill." The Government, however, refused to act upon it and rejected it under G.O. No. 137, Revenue, dated 10th March 1904.

Thus the only partial result of all the Committees and Commissions mentioned above has been the passing of the Improvements Act I of 1906. This Act has not given adequate protection to the tenants. The Hon'ble Sir Henry Winterbottom, in introducing the measure in the Legislative Council in December 1909, gave the following warning to the Jansab: "If the Malabar Landlords wish that this sleeping and tremendously difficult alternative [the conferring of occupancy rights on the tenants] should be allowed to slumber for a further indefinite term, they should be prepared to accept, if not to welcome, the very moderate measure of protection to the tenant which the Bill will afford when it becomes law." This warning has borne no avail. Eviction suits are numerous even now and if the Government will only call for statistics, it will be found that these suits form a large percentage of the cases now instituted in the Civil Courts of Malabar. It is thus to awaken the attention of Sir Henry Winterbottom from its long slumber.

Those who are opposed to tenancy legislation in Malabar argue that such legislation will be an interference by the Legislature. Legislature has, however, often interfered with freedom of contract and such interference has on the whole been beneficial. "What is there so sacred?" is the words of an ancient author, "is the property right of the landlord to be sought his from that legislative control which is always interfering with the property right of the mine owner, the mill-owner, the railway company, the factory owner, the shopkeeper, the right of the master over his apprentice, the restraint over the hire and treatment of servants, the theoretical manager over the conditions under which his duties is held."

Several Collectors of Malabar and many eminent men of the soil like Sir Sukarna Nair and the late Dr. Nair have been for tenancy legislation. Dr. Nair had even prepared a Bill on the subject, but his and another's death prevented its introduction in the Legislative Council.

While the Government of Madras, as indicated above, have been hesitating, deliberating and reading, the Governments of the Indian States of Travancore and Cochin where conditions are similar to those in Malabar have solved the problem, so far as it relates to the Khasam tenants. The Travancore Government by a Proclamation issued in 1907 and the Cochin Government by a Resolution passed in 1914 conferred occupancy right on Khasam tenants.

The real remedy for removing the agrarian discontent existing in Malabar and bringing about harmonious relationship between landlord and tenant is the grant of occupancy right to tenants in their holdings. The larger this remedy is delayed the more difficult it must become.

The object of this Bill is to confer occupancy right on all Khasam tenants, whatever the period of their possession may be, and all actual cultivators of the soil, whether they be simple tenants or otherwise, who have been or will be interrupted possession for a period of not less than six years. This Bill also prohibits the grant of sublease in any form. The duration of lease of forest lands where such lands are declared or leased for felling timber or for fugitive cultivation or both, and of buildings do not, under the provisions of this Bill, acquire any occupancy right in their holdings. Provision is made in the Bill for enhancement or reduction of rent in certain circumstances. Penalty of eviction is also given in certain contingencies. The Local Government is empowered to make rules for granting courts with summary powers for the disposal of suits relating to the recovery of mikhams, rent and interest and there are also made a first charge on the holding of all tenants, subject to the prior claim of the Government for recovery of revenue.

One objection that may be raised to this Bill is that it may lead to litigation. The obvious answer to this objection is that unless a law or statute which does not contain the possibility of litigation. The real question is one of balance of advantages. After all, the welfare of litigation under the new law is bound to be less than its present volume.

Legislation of this kind is best undertaken by Government. In the absence, however, of any prospect of action by Government, a non-official member of the Legislative Council must do what he can.

M. KUNSHINAN SATHY.

#### NOTE ON CLAUSE 2.

Clause 2 (a).—In most parts of the Malabar district, agricultural year ends with the 24th of Kumbham which often corresponds to the 24th of March. Hence this definition.

**Classes 8 and 22.**—Surrendered by tenants are bound to be very rare. When, however, they do occur, there is no reason why a landlord who does not want possession should be compelled to pay leases or sales of improvements which may sometimes be large.

**Class 3 (1) (a) and (b) and Class 22 (1) (a) and (b).**—It is only reasonable that a landlord who wants to extend or erect a residential house for himself or the members of his family or wishes to cultivate, should have the power of resuming his own lands from the possession of his tenants instead of being compelled to purchase or otherwise get lands from others. *Anglo* should be, however, provided against the arbitrary exercise of this power.

**Classes 9, 11, 24 and 25.**—Where title of lands is given, periodical settlements and revision of rents become desirable.

**Classes 12 (1) and 27 (1).**—In cases of disagreement between parties, a separate agency is necessary to settle the disputes between them. Hence the provision for institution of suits.

**Class 31.**—Resale of leases are not always arbitrary as in the case of houses. Hence the reference in this and some other clauses to custom. "Where such custom is customary." It will be noted that all leases, whether their leases are subject to renewal or not, are given under this Bill excepting rights, and the rents payable by them are subject to revision.

No. 427.—Under section 28 (1) of the Madras Town-Housing Act, 1919, the Local Government are pleased to extend the provisions of the Act to the Trichichalabam union in the South Arcot district.

*Part II, Group, March 21, 1924 (G.O. No. 263, L. & M.).*

No. 428.—The following Government Order is published:—

Letter from the Accountant-General, Madras, to the Secretary to Government, Finance Department, dated 22nd February 1924, No. T.M. 23-44-7554.

I have the honour to invite a reference to paragraph 343 of the Madras Treasury Manual detailing the several classes of Local Fund pensions paid at the treasury and to state that with the introduction of the system of cheque payments in regard to Local Fund transactions with effect from 1st December 1923 (vide G.O. No. 2135, L. & M., dated 25th September 1923), certain changes appear to be necessary in the procedure of such pension payments and adjustments of the charges.

2. As regards pensions of Local Fund employees chargeable wholly to Provincial Funds, no change in the existing procedure is called for. As regards pensions chargeable wholly to Local Funds, such bills were under the procedure laid down in paragraph 343, Madras Treasury Manual, audited by the Local Audit Department of the Collector's office. The claims cannot, in future, be dealt with by Treasury officers but should be sent to local bodies who should make their own arrangements to discharge the amounts either in cash or by cheque or cash orders on the district and sub-treasuries.

3. As regards pensions chargeable partly to local bodies and partly to Provincial Revenue, it is proposed not to alter the existing procedure of Treasury officer paying the amount of pension. The Treasury officer will be instructed to charge the portion payable by local bodies to a "Suspense Bond," and this bond will be cleared by periodical recoveries from the Local Funds concerned. I have the honour to request that if Government agree, the local bodies may be informed of the change by an order of Government.

Order—No. 532, L. & M., dated 21st March 1924.

The Government approve the proposals of the Accountant-General in regard to the changes in the existing procedure for the payment of pensions of Local Fund employees.

NOTICE TO MANAGE CARBONATE.

Candidates who have applied to be examined at Mysore are informed that they will have to sit for their examination at the Presidency College, Changanassery.

No full syllabus will be issued (except in the case of Typewriting—Lower), but a copy of the syllabus set will be posted on the notice board at the entrance to the Presidency College on the 28th April, and candidates are expected to learn their register numbers from this list.

## NOTICE REGARDING THE EXAMINATION IN TYPEWRITING.

## Held at Malacca and in its District.

Candidates coming up to typewriting must bring with them their own typewriters—the Kensington, Remington Portable, New Model Remington No. 12, Van, New Century, Smith Premier, Dumas, Knap, Underwood, Underwood Portable, Oliver, American, Standard Fielding, Standard Victor, Van Typewriter, Van Victor, Solent, Victor Typewriter—Model No. 3 and No. 30, Monarch, Standard, Royal Book Standard, Royal Standard No. 16, New Victor, Mils, Remond, Remondette, Smith or E. C. Smith or five machine. The candidate, will, if necessary, be provided *de facto*, but at least every two candidates for the Lower grade, and at least every two candidates for the Higher grade must have one machine among them.

*In its nature.*—Heads of institutions who are desirous that their pupils should be examined in this line and private candidates who desire to be examined should make the necessary arrangements with the Chief Superintendents concerned, ten days before the examination and furnish him with all necessary information, as to the number of candidates and machines and the time at which each batch should attend on the day fixed for the examination.

*At Malacca.*—Heads of institutions and private candidates should make similar arrangements with the Secretary to the Commission for Government Examinations at the 25th April between 11 a.m. and 2 p.m. at the Old College, Serangembakom.

*At Malacca.*—In the case of candidates for the Lower grade, fifteen of admission specifying the particular batch (first or second and so forth) in which they desire to appear will be issued on that day. These tickets should be shown at the entrance. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only if spare seats are available in the batch. In all cases seats are reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment heads of institutions and private candidates are particularly requested to call at the office on the 25th April and obtain tickets. No ticket can in any event be sent by post whether in hands of institutions or to private candidates.

Candidates for the Higher grade may appear for the first or second batch at their option and tickets accordingly are issued for this grade.

*At Malacca.*—Managers and instructors of institutions and other persons who wish to be allowed into the examination hall to inspect the machines and remedy any defects should call at the office on the 25th April and have their names registered. Tickets of admission specifying their names, the institution in which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall.

Candidates that have such a separate machine and that do not wish to be examined in batches are expected to appear for their examination with the third batch for the Lower, and with the second batch for the Higher examinations.

Managers and instructors of institutions concerned will be allowed into the examination rooms on the intervals between the termination of the writing hours to inspect the machines and to remedy any defects.

If a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will instruct him to the manager or instructor if he is writing, outside as the principles, and will permit such manager or instructor to enter the hall or room (though the candidate may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in this matter; his duty will be purely *ex officio*, the whole responsibility resting on the candidate and the manager or instructor.

A similar concession will be allowed in this case to a private candidate if he has about one article who is willing to inspect the machine and put it right, etc.

No extra time will be given to candidates to compensate for loss of time while the machine is out of order and being put right.

## Attention is drawn to the following rules:—

1. No candidate will be allowed to enter the examination room unless he wears a clean and decent dress, and if all made where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are clean and polished, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination room.

2. No candidate will be allowed to quit the examination room on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates arriving after the expiration of this half hour will not be admitted.

3. No candidate will be allowed to re-enter the examination room during the hours of examination after once quitting it, nor to leave the room without finally giving up his answer paper.

4. Any candidate detected in speaking to, or in any way communicating with, any other candidate will be at once removed from the room and the circumstances reported to the Chief Examiners.

5. Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examination is suspected of having had recourse to subterfuge of any kind or to have been tampered with, and shall be detained from appearing again for any of the examinations under the control of the Commissioner for each term of year as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of the candidate, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.

6. No candidate will, on any account, be allowed to take out the examination even list, answer sheet, ruled sheet, memorandum or paper of any kind. Any one detected in the violation of this rule or having recourse to any unfair practice, will be removed from the room, and the certificate awarded to the Candidates. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

7. Candidates whose names are not in the printed list furnished to the Superintendents must submit a written declaration through the Superintendents giving full particulars in regard to themselves, including their address, and furnish such evidence as may be possible of their having applied for admission to the examination at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the candidates of those names are due to part of them.

8. Candidates desiring to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their names published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

9. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examination.

10. A candidate having completed his paper will take from his seat and remain standing until the Superintendent takes his answer paper. Any candidate wishing to ask any question of the Superintendent will remain in the same corner, but will do so without leaving his place.

11. Any answer papers, sent up without the candidate's name and number affixed will not be valued. The answer papers should be sealed up, pinned together at the upper left-hand corner, and the whole folded in four, lengthwise (not crosswise) (see list). The place of examination and the name and number should be written out clearly by the candidate on the top left-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

12. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any paper, except their question paper, out of the examination room.

13. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All spent copies, etc., should be left on the desk when the candidate has been writing.

## DEPARTMENT OF AGRICULTURE.

## FOURTH OR FINAL REPORT OF THE COMMISSIONER OF 1933-34.

[On an average of the five years ending 1933-34, the area under pinyon in the Mexican Possessions has represented about 17 per cent of the total area under pinyon in British India.]

The area sown with pinyon in 1933-34 is estimated at 923,500 acres as against the estimate of 123,500 acres made in the same day last year. The latter estimate was based on the actually recorded area of 327,500 acres by only 1 per cent. The estimate this year is 10 per cent below last year's estimate. The area is an average year is estimated at 811,800 acres.

2. Two hundred and twenty thousand and four hundred acres have been reported as sown since the date of the previous forecast issued in January. These late sowings were mainly on paddy lands in the Chittur, South Arcot, and the South where pinyon was raised as a second crop. The area then sown was greater than in the previous year owing to the fact that pinyon was raised in the place of foodgrains for which the government was landless.

3. The area sown in South Arcot is only about 50 per cent of that in the previous year. Other notable decrease in area are in Chingleput and Bellary. The area in Andrapur increased from 7,100 to 14,700 acres owing to the unfavourable season for foodgrains.

4. The yield is normal in Tanjore and the West Coast. Elsewhere yields below normal are reported. The early crop in South Arcot has a high yield in these districts, especially in Anantapur and Bellary. The prospects of the late sown crop are very fair in Bellary, Chittur, South Arcot, Bellary, Chingleput, and Tanjore and not satisfactory in North Arcot and Coimbatore. The seasonal index for the first heavy rains was 93 per cent as against 92 per cent in 1932-33 and 96 per cent in 1931-32. On this basis, the crop of 1933-34 is estimated at 49,923 tons as against 44,923 tons in the previous year and an average yield of 199,800 tons.

5. Details by districts are given in the statement appended.

(Area in hundreds of acres (i.e., 00 being omitted); yield in thousands of tons (i.e., 00 being omitted).)

## CULTIVATED AREA OF 1923-24 IN FINAL REPORT.

(On an average of the two years ending 1921-22, the area under cotton in the Madras Presidency has represented 24.9 per cent of the total area under cotton in India.)

The area sown with cotton in the Madras Presidency in 1923-24 is estimated at 7,166,200 acres against 7,010,000 acres in the February harvest report. The increases are mainly in Coimbatore (50,000 acres), Madras (40,000 acres), Bellary (11,000 acres), and Tanjore (10,000 acres). The estimate in the February report for Madras has been reduced by 50,000 acres as it was found that one of the taluqs had reported incorrect figures.

The present estimate for the Presidency represents an increase of 14 per cent over the final area of 7,042,000 acres in 1922-23.

2. The absence of any showers till the middle of March reduced the prospects of the crop all India in Madras, Assam, Coimbatore, Tellicherry, Madras and Bombay. The weather was generally beneficial except in Madras and Bombay where dry conditions with the season's rainfalls and affected the quality of the lint to some extent. These rains will however improve the prospects of the cotton pickings.

The seasonal factor for the Presidency works out to 48 per cent as against 52 per cent in the previous year. On this basis, the yield works out to 418,000 bales of lint against 438,400 bales in the previous year, an increase of 15 per cent and against an average of 473,000 bales.

3. The estimated area and yield under the several varieties are given below. Adequate data on which the distribution can be accurately based are not however available.

By virtue of the powers conferred by the Government of India Act, 1915 (No. 2, Sec. 7, Ch. 65), the Eastern District of the High Court of Madras, dated the 10th December 1923 as amended by the Eastern District, dated the 10th March 1924, the Chief Civil Judge of Madras and the District Judge of the same, and of all other powers lawfully available, it is ordered that the rules of the High Court, Original Side, 1927, be amended as follows and that the amendments do come into force on the 1st day of May 1924.

(1) Substitute the following for rule 163—

"No decree or order shall be made for payment of money out of Court except upon a certificate of the Registrar of the Court, or of the Deputy Registrar, Original Side, as to the state of the accounts between the parties."

(2) Substitute for the rules 246 to 262 in order XL the following rules, viz:—

## ORDER XL.

## AMENDMENT OF ORDER XL.

246. The Registrar of the Court shall be the Accountant of the High Court and shall keep a regular account of all money, officers and a receipt of the nature of the Court or person interested which shall be entered in the book or delivered into or out of the Imperial Bank of India for investment in securities authorized by Appendix IV of these rules, and the said book shall be open to the inspection of all persons interested during office hours.

247. The Deputy Registrar, Original Side, shall make a register to be kept by him containing, hereinafter referred to as the Money Order Book, an entry of every decree or order for the payment or delivery into or out of the Imperial Bank of India of any money, officers or securities, and shall before delivery of the copy of the decree or order in the process or process entered to the same or his or their pleader, make "entered" at the foot of each copy and subscribe his name therein.

248. Where a decree or order is made for the payment or delivery into or out of the Imperial Bank of India with the priority of the deposit of the Court of any money, officers or securities (except as otherwise ordered) of any of the nature of the Court or person interested, therein, an entry copy signed by the Deputy Registrar, Original Side, and sealed with the seal of the Court shall be taken to the Registrar of the Court or officers or persons or persons interested to make the payment or delivery, as by the order or decree or process or persons to whom the payment or delivery is ordered to be made, as by the pleader or authorized agent of such person or persons.

200. The Registrar, High Court, shall make an entry of the decree or order of the Court in his book, and he shall mark "satisfied" on the copy of the decree or order presented to him and append thereto his name therein, and shall (except in the case provided for by rule 203), certify under his hand at the foot of the said copy of the decree or order to the Secretary and Treasurer of the Imperial Bank of India that he is to receive from the person or persons mentioned in the said decree or order, or that he is to pay or deliver out to the person or persons mentioned in the said decree or order, the money, effects or securities mentioned in the said decree or order, specifying the amount and particulars thereof, and that he is to place the same in the debt or credit, as the case may be, of the fund in which the decree or order is made.

201. In case when the money or securities to be received by the Secretary and Treasurer of the Imperial Bank of India are already deposited in Court, the Registrar shall transmit the same to the Imperial Bank of India together with his certificate. In all other cases the said copy of the decree or order with the certificate of the Registrar thereon shall then be taken by the Secretary and Treasurer of the Imperial Bank of India by the person or persons ordered to pay or deliver into or to receive out of the said Bank the money, effects or securities mentioned in the said decree or order and certificate, or by his or their pleader or authorized agent. The said Secretary and Treasurer of the Imperial Bank of India shall, pursuant to the decree or order, receive from or pay out and deliver to the person or persons mentioned in the said decree or order and certificate, on demand or to him or their pleader or authorized agent the money, effects or securities specified therein, and shall make an entry thereof in the book to be kept by him for that purpose.

202. When any money, effects or securities are paid or delivered to and received by the Secretary and Treasurer of the Imperial Bank of India, he shall give to the person or persons paying or delivering the same a receipt for the money, effects or securities so paid or delivered, and shall certify when the payment or delivery has been made by the Registrar himself, forthwith under the signature of the Court's duplicate of the said receipt; and the Registrar of the Court shall enter the said receipt in his duplicate in his book and file of record in his office.

203. When any money, effects or securities are paid out or delivered by the Secretary and Treasurer of the Imperial Bank of India, the person or persons receiving the same shall give a receipt to the said Secretary and Treasurer, which receipt, together with the said copy of the decree or order and the certificate of the Registrar of the Court, shall be filed of record in the office of the said Secretary and Treasurer, and shall be a sufficient receipt to the said Imperial Bank of India for any sum of money, effects or securities so paid out or delivered to the party entitled to receive the same under such decree or order and certificate. Provided that, when the decree or order requires the payment to any person or persons of the interest upon any Government securities, half-yearly as in accordance, an certificate by the Registrar of the Court to the said Secretary and Treasurer of the Imperial Bank of India shall be required to authorize the payment of such interest by the Secretary and Treasurer of the Imperial Bank of India; but the Registrar shall draw a cheque upon the said Secretary and Treasurer for the amount of such interest when due; and the person or persons entitled thereon, or his or their pleader or authorized agent shall take the said cheque to the said Secretary and Treasurer, who shall thereupon pay the amount mentioned therein to the person or persons entitled thereon, or his or their pleader or authorized agent and the said cheque shall be filed of record in the office of the said Secretary and Treasurer.

204. The interest upon any mortgage or securities paid or delivered by the Imperial Bank of India under a decree or order of the Court shall, unless otherwise ordered by the Court, be received by or with the party of the Registrar of the Court, and to be by him or with his pleader forthwith, or as soon as conveniently may be, laid out and invested in new Government securities, and such new securities shall be deposited to the credit of the same mortgage respectively; and the Registrar of the Court shall specify all such sums so received or invested or allowed in the accounts kept by him.

205. Neither the Registrar of the Court (except as provided by rules 200 and 203), nor the Deputy Registrar, nor any other officer of the Court, shall, intermeddle with the actual receipt of any money, effects or securities, which shall be delivered by the Court to be paid or delivered into or out of the Imperial Bank of India by or to the person or other person taking money paid into Court, by way of satisfaction or otherwise, or receive thereon offered by the Court, be paid out to the plaintiff or to his pleader on the written authority of the plaintiff, and no effort shall be necessary to verify the plaintiff's signature to such written authority unless specially required by the officer of the Court.

206. If the amount or value of the money, effects or securities to be paid out is below five hundred rupees, or under special circumstances during any adjournment of the Court, a Judge in Chambers may make an order for the payment or delivery of the money, effects or securities out of the Imperial Bank of India.

207. It shall not be necessary in any decree or order for the payment or delivery into or out of the Imperial Bank of India, of any money, effects or securities to set out the Registrar's certificate at length; but it shall be sufficient to refer thereto.

208. Unless the Court shall otherwise direct, every decree or order for payment of money or delivery of securities into Court shall direct such money to be paid or securities to be delivered and delivered over to the Secretary and Treasurer for the time being of the Imperial Bank of India (or such other officer or officers as shall for the time being have the custody of the funds of savings) with the priority of the Registrar of the Court.

209. Unless the Court shall otherwise direct, every decree or order for the payment or delivery out of Court of money or securities for money deposited in Court in conformity with the then prevailing rule shall direct such money to be paid or securities to be delivered and delivered over by the Secretary and Treasurer for the time being of the Imperial Bank of India (or such other officer or officers as shall for the time being have the custody of the funds of savings) with the priority of the Registrar of the Court.

## DEPARTMENT OF AGRICULTURE.

## CERTIFICATE STATEMENT—APRIL 1914 TO JANUARY 1911.

(On an average of the five years ending 1910-11, the area reported as sown in January represents 4 per cent on dry lands and 5 per cent on wet lands, the corresponding figures for the period April to January being 54 per cent on dry lands and 51 per cent on wet lands.)

**Grain.**—There was moderate rainfall in the first half of January 1914 in South Coast, Trichinopoly, and the North. Elsewhere there was little or no rain in the month. The water-supply was sufficient in the main river systems but insufficient on the West Coast and in basins in the Deccan and parts of the Central and Central districts. Transplantation of sown crop partly was fairly good outside Tanjore and the West Coast. Ragi was sown on wet lands outside the South and late paddy in the Coimbatore, Chingleput, North Arcot, and Tanjore.

**3. Dry lands.**—The area sown in January 1914 was about 15 per cent below the average and 10 per cent below last year owing to insufficient rainfall. The reduction was fairly general except in Gangan, Tanjore, South Arcot, Trichinopoly, and Tanjore. The largest reduction was in the Deccan where the area sown was only about 4 per cent of the area sown in January 1913. In North Arcot the area sown exceeded the average by 44 per cent owing to the favourable rainfall in December.

The area sown from April to January 1914 was restricted by about 5 per cent. Sowings were satisfactory in Gangan, Kurnool, Kurnool, Chingleput, and South Arcot. They were much restricted in North Arcot, Salem, Chingleput, Madurai, and the South. In Anantapur the area was restricted by more than 5 per cent.

**3. Wet lands.**—The area sown in January 1914 was below the average and last year, especially in Anantapur, Chingleput, and North Arcot.

The area sown from April to January 1914 was less than the area last year by 2 per cent though it exceeded the average by 3 per cent. Sowings were very satisfactory in the Coimbatore and Rayachoti but restricted in Anantapur and the Central districts.

# SOUTH ABBOT.

Paddy poor in the taluk of Chittambur and Pudukkottai. Prospects not encouraging.

# NORTH ABBOT.
